New England Mutual Life Ins.,
Of Boston, Mass., Chartered in 1843.
Capital and accumulation, \$650,000.

THIS Company is one of the oldest, and among the most prudent and successful conducted in the country. The primary object in conducting its business has been to provide perfect security to under all conceivable circumstances, for the payment of its losses and to secure a return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business and is subject to no liability or assessments beyond his premium. The directors are required to be particularly interested in the company, and they give their personal attention to the management of the company, and they are officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may require the lives of debtors.

WILLIAM PHILLIPS, President; B. F. STEVENS, Secy. O. P. ROBINSON, Examining Physician.

The undersigned has been duly appointed Agent of the above named companies, and is now prepared to take risks and issue policies upon all kinds of insurable property at the lowest rates of premium.

Office at Emerald Grove, Rock Co., Wis., or at the Janesville City Bank of H. B. PARSONS.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL.
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, etc., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses other than of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the claims that occur upon stock, barns, mills, shops and such like property, are rejected by the company. In this case, the property is rejected positively, by LETTERS THEMSELVES.

Farmers, look to your own interest, and insure in a company that has been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last 100,000 we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

JANESVILLE: : : : WISCONSIN.
THURSDAY MORNING, SEPT. 7, 1854.

COLLEGIATE INSTITUTE.—The exercises at the opening of this institute yesterday morning were of an interesting character. There was a good attendance of our citizens, and after the introduction of Mr. Gorton, the principal, by the Rev. Mr. Dearborn, addresses were made by Dr. C. G. Pease, Messrs. S. A. Hudson, Geo. S. Dodge, J. T. Wright, J. H. Budd, and the Rev. Mr. Foote. The names of 60 or 70 students were enrolled, and several others who have applied for admission were not present. The foundation of a commodious building to be used as a boarding house will be laid this fall, and altogether the institute opens under very encouraging prospects. We hope the expectations of its friends may be fully realized, and thus meet one of the most obvious wants of the city.

NEBRASKA AND KANSAS.—The area of Nebraska is 342,438 square miles, equal to 219,160,320 acres; Kansas has an area of 126,283 square miles, or 80,821,120 acres. Says the Boston Atlas:—This is the country which the slavery propagandists of the south and their plant tools at the north, wish to have devoted to an institution which withers and blights every fair land in which it takes root. Shall this vast, extensive and fertile country be the land of freedom or of bondage? This is the question now submitted to the American people. Consider, for a moment, the vast extent of the territories. Kansas would make some seventeen states and Nebraska some twenty-eight states as large as Massachusetts. This is the territory which Franklin Pierce and Stephen A. Douglas would devote to slavery, for the purpose of increasing their prospects for the presidency. This is the vast domain which the hired prelates of the administration are willing to devote to human servitude to show their devotion to the power that feeds them.

CONGRESSIONAL PROSPECTS.—It seems to be the current opinion that S. M. Booth is likely to get the coalition nomination for congress this fall. He is working like a beaver for it. We think such a nomination would be most appropriate—abhorrent as would be his election to the feelings of the respectable portion of our people. It would be a legitimate consequence of the inexcusable folly of some of the anti-Nebraskaites—a pill which, though bitter to take, is the best we can imagine to cure the disease.

WE are not residents in the first congressional district, and can occupy our time fully in looking after matters at home; but should Mr. Booth have been put in nomination by the convention which met at Rochester yesterday, we agree with the News that it would in one respect be a "most appropriate" selection. The democratic party by its repeal of a sacred compact, and a most wanton agitation of the peace of the country, has forfeited all claim to the confidence of the people or the forbearance of its foes. If Mr. Booth is the "bitter pill" that can be administered to the party, and its defeat by him would be more humiliating than by any other man in the district, the News and its faction of the party have provoked and richly merit the dose. A violent disease often requires a violent remedy. We could pick for ourselves a candidate more to our taste than the editor of the Free Democrat, but none whose election would be more distasteful to the Nebraska democracy of the state, and so far as that portion of the party is concerned, we could enjoy any amount of retribution meted out to it. So gentlemen Nebraskaites, if Mr. Booth is your next representative in congress, don't blame anybody but yourselves, and try and see if you can't learn something from the lesson it teaches.

"PROGRESS" OF SUBSCRIPTION.—We learn that up to Saturday last, \$180,000 had been subscribed in Green county to the Southern Wisconsin railroad.

LATER.—We further hear that up to the evening of the 6th \$230,000 had been subscribed. Of this, \$80,000 were subscribed at Clarence on Tuesday.

THE New York Tribune has diminished the size of its daily issue, in consequence of a decrease in its advertising department. The publishers hope that with a return of more prosperous times, and the discovery of some cheaper material for paper than that now used, they will be enabled to go back to the old size.

YELLOW FEVER IN NEW ORLEANS.—For the week ending the 20th August, there were 118 deaths, being an increase of 53 over the preceding week. The whole number of deaths from other diseases was 140. On the evening of the 21st, there were 180 cases of the fever under treatment at the charity hospital.

THE earnings of the Galena and Chicago railroad for the month of July last, was—
Freight.....\$58,456 02
Passengers.....36,099 86
Mails.....1,063 33
Total.....\$95,613 21

A company of emigrants from Massachusetts to Kansas, to the number of about 8000 arrived at Albany, N. Y., at 11 o'clock in the evening, on the 30th ult. They were received by a large crowd at the depot, and conducted to the Delavan House, where a pleasant interview was held until after midnight.

PROMOTION.—H. O. Wilson has been promoted from a local to a general agent for this state for the Michigan Southern railroad. The appointment is a good one for the agent and the road.

TALL RUNNING.—At a foot race at the New York Hippodrome on the night of the 8th inst., Barlow ran two miles in eleven minutes and forty-three seconds, the quickest time on record.

[Reported for the Janesville Gazette.]
Wisconsin Annual Conference of the M. E. Church.

SEVENTH DAY.
Wednesday, Sept. 6, 1854.

Conference convened at 8 o'clock, Bishop Morris in the chair. The session was opened with reading the scriptures, singing, and prayer, by Rev. Mr. Martin.

The minutes of the last session were read, corrected and approved.

The conference then took up the 1st question again. C. M. Webster, G. W. Richardson, Jas. Sims, Harvey Palmer, Robert Langley, Samuel Dodge, John W. Waterbury, Wm. H. Buncie, Chas. C. Elder, Ezra Tucker, J. W. Lyman, Geo. H. Fox, Aaron H. Anns, J. W. Donaldson, J. B. Annette, Jas. D. Requa, E. W. Stevens, Edwin Buck, Ramsay Gould, Samuel Sterne, were received on trial.

J. S. Johnson was re-admitted.

A call was then made for the usual church statistics. Reports from the different churches showed a fair increase in membership, local preachers, churches, and parsonages.

The case of afflicted elders was then taken up. The past year has been a time of general health, peace, and prosperity among them.

A. E. Randall was granted a supernumerary relation.

The committee on education then presented the remainder of the report.

The conference after deciding to have another session at 2 o'clock, adjourned to that hour.

E. C. JONES, Conf. Reporter.

EDITORS OF THE GAZETTE:—

Permit me through your paper to call the attention of the farmers and mechanics of Rock and adjoining counties, to the fact that the annual fair of the Rock county agricultural society and mechanic's institute, will be held at the "fair grounds" in Janesville, on Wednesday and Thursday of next week, it being the 13th and 14th days of September, 1854.

The officers of the society are making preparations for one of the most splendid and attractive fairs ever got off in Wisconsin. From the known ability, energy and perseverance of the present executive committee, we have the surest guarantee that every thing on their part will be done right, and that they will make the approaching anniversary of the society a memorable occasion—one that will eclipse all its predecessors, and challenge all subsequent ones.

Now, farmers of Rock, Walworth, Green, Dane, and other adjoining counties, shall we respond, and go up en masse and celebrate the festival? Let us go up with our cattle, horses, and sheep, our pigs and poultry, our butter and cheese, our farm implements and mechanical productions, our domestic manufactures, specimens of the fine arts, exhibitions of the skill and industry of our wives and daughters, both in the department of needle-work and forgetting not the gifts of Flora and Pomona, thus incontrovertibly demonstrating that we can get up a "state fair" just here in Rock county.

We would not say it boastfully, but we believe the fact should be published, that we have the material, the appliances, both natural and artificial; animals and products; men, women and children, to get up and carry through one of the best agricultural and mechanical exhibitions ever attempted west of the lakes, and would invite all those who may have doubts upon the subject to come out next week and judge for themselves.

In conclusion let me call particular attention to the list of splendid prizes offered by the society for the year 1854. The premiums, to be sure, are only a secondary object, and we merely allude to them to show that our society is a "living, breathing reality." Come up, friends. We shall have a "good time!"

Yours as ever, for Agriculture and the Mechanic Arts.

J. F. WILLARD.

We fear that the people of this county are not properly seconding the efforts of the officers of the society, and that consequently the fair will not be what it might and ought to be. There can be no question as to the fact that abundant material exists to make an exhibition of the products of the county creditable to the county and the exhibitors. If the coming fair shall be in any sense a failure, or shall not contrast favorably with any of its predecessors, the source of the fault need not be long looked for. The time for preparation is short, and those who intend doing anything should be about it at once.

ADDITIONAL SLAVE STATER.—The Journal of Commerce is very positive that the position taken at the Saratoga convention against admitting any more slave states cannot be carried into effect, for the reason that we have made a compact with Texas to admit certain portions of her territory with or without slavery, as the inhabitants might desire. That is a pretty doctrine for these men to bring forward who have been prominent in overthrowing the compact of 1820. The very same impudent pro-slavery advocates who have destroyed the constitutional and hitherto sacred compromise under which Missouri was admitted into the union, now contend that the bargain with Texas is inviolable. We trust that northern men will stand up firmly against the admission of another slave state under any circumstances. We have to meet this element at every point, or it will obtain a signal advantage over freedom. If we yield to it longer, we shall have to surrender all the principles which lie at the foundation of a republican government. —Newark Mercury, Aug. 26.

FITZ-HENRY WARREN IN THE U. S. SENATE.—The Whig politicians in Washington, taking it for granted that the newly elected Iowa legislature will surely decapitate senator Dodge, whose term of service expires on the 4th of March next, are in ecstasies at the prospect of the election of Mr. Fitz-Henry Warren in his stead. If they get him there he will surely prove the ablest right-hand man whom senator Seward will have in the body. He is intelligent and indefatigable, knowing every body and everything, in a political way, worth knowing. Personally, he is very popular.

NEWS BY THE PACIFIC.—We give the particulars by the arrival of the Pacific announced yesterday.

Letters from Bismarck give the details of the capture of that fortress. The effect of the guns upon the walls was terrible, and large blocks of granite which appeared impregnable fell out in masses. The English loss was only one, and the enemy had 6 killed and 7 wounded. The 2000 prisoners are to be sent to the Downs to await orders. Among them are General Rodio and the Governor and Lt. Gov. of the fortress.

Letters from Jansa say the Russian troops will all have crossed the Pruth by the 1st September.

The cholera was making awful havoc among the allied troops. The latest advices put down the French loss by cholera about 700, and the English at 600.

The Austrian corps was marching upon Wallachia at the latest accounts.

The health of the combined armies was improving.

Gallipoli is nearly free from cholera.

The Russians suffered terribly on their route towards the Pruth, and took with them 24,000 sick. Prince Paskewitch was to resume the principal command of the army, in the place of Gortschakoff, who was to have the chief direction of the troops. About 70,000 entered Bessarabia.

The Prussian government insists that the negotiations between the western powers and Russia shall be submitted to the diet out of Austria, but Austria refused.

The Russian headquarters have been established at Ismail.

The Austrians have commenced crossing the frontier at Varna and Servia.

Henry Waterman & Son, of Vienna, have failed for five millions of florins. The failure of Monapurgo & Co., of London, is also anticipated here.

Archangel is effectually blockaded.

All quiet in Spain.

Trade at Manchester quiet and buyers not disposed to make further contracts.

The following dispatch, announcing the capture of the important place, has been received by the English and French governments' admiralty:—

SARONG, August 19.—A telegraph dispatch has been received at the admiralty office. This was from the flag, and sent by Sir Charles Napier, announcing that he forces of Bomersund had surrendered to the allied forces, at 124 P. M. of the 14th. Upwards of 2000 prisoners laid down their arms and embarked. Loss on either side was inconsiderable.

The Douglas meeting at Chicago, on Friday night, was an uproarious affair. The papers say that there were nearly five thousand persons in attendance. They uncivilly hissed him down two or three times. His speech was rather the answer to inquiries from all sides, than a regular speech. They should have heard him quietly, and then rebuked him by voting down approbatory resolutions. But the indignation is so intense at his treacherous course in congress, that it was not restrainable within the bonds of decorum. It will be remembered that Douglas not only voted to open thirteen states, as large as New York, to the introduction of slavery, but he also voted against the harbor and river bill; and cordially voted to give \$10,000,000 to Santa Anna, in order to extend our southern boundary. He also favors a war for Cuba—or its purchase for \$100,000,000 or more. All these causes combined, renders the feeling of indignation against him intense. It should also be borne in mind that his few followers in this city favor the same anti-democratic, or rather Russian principles. —Wisconsin.

AN UNHELMED PRAYER.—A correspondent writing from Florida, gives an incident in relation to a prayer offered by request during the severe drought, by a venerable Methodist preacher who bore no good will to the baptists. His prayer was somewhat remarkable for its unselfish tone, and ran this wise:—"Let it rain, beginning at my plantation in Hamilton county, coming down to the religious neighborhoods of Columbia and Nassau, where immersion is not practiced, and reaching Black Creek, even Black Creek, and bringing forth in abundance, none of your little 'nubins', however, but long ears, as long as this good right arm." —Nat. Intell.

WATER CURE ESTABLISHMENT.—A gentleman in our village making preparations to open a water cure establishment at "Devil's Lake." No better place could be found anywhere for an establishment of the kind. —Baraboo Standard.

There could not be found a more charming spot for such an establishment in the whole union. The water and scenery is incomparable and the rattle snakes very large. —Wis.

The Newark, N. Y., Mercury publishes an account of the discovery by the parents of a child stolen from them two years since in New York. The mother having got a clue as to the whereabouts of her stolen daughter, proceeded to the house of the persons who abducted her—and who were bringing her up as their own—and upon knocking at the door for admittance it was opened by her own child. The recognition was mutual and joyous. The mother demanded her daughter, the woman of the house resisted, but the true parent carried off her long lost, and the parents and child were overjoyed.

A NOVEL WAY TO RAISE THE WIND.—One day last week, a gentlemanly-looking young fellow, about twenty-two or twenty-three years of age, called on the sexton of Cave Hill cemetery, and ordered a child's grave to be dug. Having seen the sexton break ground, he remarked that he would then pay for the work, and tendered a ten dollar note receiving eight dollars in change. As no child's funeral was expected during that day, nor the next, nor the next, the sexton suspected something was wrong and upon examining found his ten dollars counterfeit. So he is out of pocket to that amount, besides the labor of digging the grave. —Louisville Courier.

Soon after the Madison convention, it was claimed by some of the Nebraska presses that there were 18 papers in this state that supported the Nebraska bill and slavery extension. This statement we recorded for future reference. How many papers are there now which support Nebraska? "Such another getting down stairs," &c. —Monroe Sentinel, democrat.

An old woman at New Haven applied to her doctor for some imaginary disorder, and received a box of pills, for which she paid 50 cents. She took some doses and got well, as if by magic. She carefully kept the remainder, but somehow the box got knocked out of the window. It was several weeks before she discovered her loss, when on going down under the window in the garden, she found that all her pills had sprouted! They were only peas in disguise.

CHICAGO & MILWAUKEE R. R.—This company will locate their depot about one block from that of the Illinois & Wisconsin railroad near Kinzie street bridge. —Chicago Democrat.

TO DESTROY VERMIN ON ANIMALS AND TREES.

—G. W. Kendall, one of the editors of the New Orleans Picayune, in his letter from Paris to that journal, gives the subjoined recipe for destroying vermin on animals, plants, and trees. The remedy is simple, easy of application, and worthy of at least a trial:

The celebrated Raspail, well known as one of the best French chemists, has given an important recipe for destroying vermin on animals, and also on plants and trees—important, at least, if true. The process he recommends is to make a solution of aloe—one gramme of that gum to one litre of water, French measure; and by means of a large brush, to wash over the trunks and branches of trees with this solution. This simple process, says Raspail, will speedily destroy all the vermin on the trees, and will effectually prevent others from approaching. In order to clear sheep and animals with long hair they must be bathed with the solution, or well washed with it. Raspail mentions several trials he has made with this mixture, all of which have been attended with the most complete success; and he recommends it very strongly to general use. I can only say that if a simple solution of aloe and water will kill or drive away ants from peach and other trees in Texas and other parts of the south, the discovery will be hailed with pleasure. At all events, there is no harm in trying the experiment. A French litre is a little less than three of our pints; a gramme is the five-hundredth part of a French pound. A little aloe, if used at all, will thus go a great way. Were I troubled with ants and other vermin in Texas, (Mr. Kendall having a large flock of sheep in Texas,) I should certainly try Raspail's solution.

If anything was necessary to show that the administration of Franklin Pierce had become desperate, we should only have to look at his official organ, the Union. Terrified and alarmed at the great movement which is going on throughout the whole northern section of the country, it vents its spleen upon the whigs, and calls them all manner of hard names. But not satisfied with this, it has recourse to downright misrepresentation and falsehood. The Nebraska peril haunts its disordered imagination, and it finds that like the ghost of Banquo, it will not down at its bidding; and consequently it attempts to gain consolation by stating that every man of observation knows to be untrue. Hear its deliberate falsehood.

"The Nebraska bill has been a law a few brief months, and, save among those whose trade it is to assail the Union, and to seize every pretext to infuriate the south, the public mind is rapidly reaching the conclusion, that it was a wise, patriotic, and necessary act of congress."

Where does the Union find its evidence for this false assertion? In the defeat of the administration in the president's own state? Or does it look to the more recent defeats of the democratic party in Missouri and Iowa. If the public mind rapidly reaches any more such conclusions, the administration will soon find itself as powerless as were the mosquitoes at Greytown. —Boston Atlas.

THE USURY LAWS.—The operation of the usury laws in this state has had for many years a prejudicial effect upon its commercial movements. They restrict the free use of capital by preventing loans by capitalists when risks are, as at present, extra hazardous. There are certain times in commercial history when the loan of money is accompanied with a greater risk than under ordinary circumstances, and the premium (or rate of interest) on loans, during a period of financial difficulty, should be commensurate with such extra hazard. —Courier and Enquirer.

Upon the above the Albany Journal makes the subjoined pertinent and forcible comments:—Our usury laws were so modified, under malign influences, as to allow railroad companies "the largest liberty" in negotiating loans. In this respect therefore, capitalists have been free to take as many "extra hazardous risks" as they pleased. Railroad bonds, like produce and merchandise, been matters of traffic between seller and buyer. Or, like water, (in free trade parlance,) they have been "seeking their level," and we may add, pretty sure to find what they were seeking!

Whether this measure of experience, in the wisdom of "free trade money," will satisfy capitalists, can be best determined when their bond account has been closed.

We will not now assume, as we might without fear of contradiction, that if railroads had not been exempted from the effect of the usury laws, we should have escaped the financial evils now pressing upon us, because the lightest evil of these evils have come. The worst, however, is at hand, in the failure to pay interest, the foreclosure of mortgages, the sale of roads, and a train of consequences which we will not anticipate.

DERANGED MAILS.—We saw at the post office this morning fourteen canvas bags filled with bound books, and addressed to Augustus Caesar Dodge of Burlington, Iowa.

No wonder mails are deranged when they are burdened with whole libraries. Augustus Caesar, however, having met his Brutus, we shall not hear scolden from him hereafter. —Chicago Journal Aug 16th.

And no wonder the expense of the post office department exceed its revenues, when tons of free matter are carried to almost every corner of the union, under the frank of a member of congress. And this is not the sole evil. Just so long as members of congress can "dead-head" through the post offices, whatever they please just so long will they continue to vote themselves books and other articles which they ought to pay out of their own and not the pockets of the people. In the civil and diplomatic appropriation bill passed by the last congress, the sum of \$218,735 30 was directed to be taken from the treasury, to pay for books for members—more than \$1,000 to each member. There is but one remedy for this; cut off the privilege of the "frank" from our members of congress and the book plunder will stop. If our members of congress are not sufficiently compensated for their service, raise the amount of compensation by law; but let a stop be put to this wholesale system of plunder. —Albany Register.

The administration papers have but very little to say about Iowa. The result in that state seems to have paralyzed them. Even the Union, whose impudence seemed exhausted, mourns in silence. And well it may; for since the passage of the Nebraska swindle, the administration has lost six United States senators, five states, and half a score of members of the house of representatives! "Popular sovereignty" seems to be illustrating its potency in a manner quite unexpected to those who applied the principle for the purpose of extending slavery. However, as they sowed the wind it is pleasant to see them reaping the whirlwind. Where is Douglas? —Albany Journal.

The Niagara Democrat, N. Y., says the yield of wheat upon some farms in that county will be as low as five bushels to the acre. As the threatening proceeds, the farmers find their crop even shorter than was anticipated.

ENGLAND'S HUMANITY.—It is generally known that savages were employed by the king of England, George III., and paid at so much per scalp of man, woman and child, during the revolutionary war. A few items from this terrible trade in human flesh may perhaps interest some of our readers, and show how this patriotic king strove to crush out the noble spirit of independence of our early heroes. Here is a list of a number of packages that were sent by one James Boyd, from a Captain Crawford, to the British Governor of Canada, Col. Hamilton. These packages of scalps were found among the baggage of the English army, after the defeat of Burgoyne, cured and dried, with Indian marks upon them. The letter accompanying them ran thus:

Package 1. Containing forty-three scalps of congress soldiers, killed in different skirmishes, stretched on black hoops, four inches in diameter.

Package 2. Containing ninety-eight farmers' scalps, killed in their houses, on red hoops, with a figure of a hoe painted on each to denote their occupation.

Package 3. Containing ninety-seven farmers' scalps, on green hoops, to show they were killed in the fields.

Package 4. Containing one hundred and two farmers' scalps, eighteen of them marked with yellow flames, to signify that they were burned alive.

Package 5. Containing eighty-eight scalps of women, hair long and braided, to show that they were mothers.

Package 6. Containing one hundred and ninety-three scalps of boys of various ages, on small green hoops.

Package 7. Two hundred and eleven girls' scalps, big and little, on small yellow hoops.

Such was the stuff of which English royalists were made in the "days which tried men's souls."

JANESVILLE : : : WISCONSIN.
THURSDAY MORNING, SEPT. 7, 1854.

COLLEGIATE INSTITUTE.—The exercises at the opening of this institute yesterday morning were of an interesting character. There was a good attendance of our citizens, and after the introduction of Mr. Morton, the principal, by the Rev. Mr. Dearborn, addresses were made by Dr. C. G. Pease, Messrs. S. A. Hudson, Geo. S. Dodge, J. T. Wright, J. H. Budd, and the Rev. Mr. Foote. The names of 60 or 70 students were enrolled, and several others who have applied for admission were not present. The foundation of a commodious building to be used as a boarding house will be laid this fall, and altogether the institute opens under very encouraging prospects. We hope the expectations of its friends may be fully realized, and thus meet one of the most obvious wants of the city.

NEBRASKA AND KANSAS.—The area of Nebraska is 342,438 square miles, equal to 219,100,320 acres; Kansas has an area of 128,283 square miles, or 80,621,120 acres. Says the Boston Atlas:—This is the country which the slavery propagandists of the south and their plant tools at the north, wish to have devoted to an institution which withers and blights every fair land in which it takes root. Shall this vast, extensive and fertile country be the land of freedom or of bondage? This is the question now submitted to the American people. Consider, for a moment, the vast extent of the territories. Kansas would make some seventeen states and Nebraska some twenty-eight states as large as Massachusetts. This is the territory which Franklin Pierce and Stephen A. Douglas would devote to slavery, for the purpose of increasing their prospects for the presidency. This is the vast domain which the hired presses of the administration are willing to devote to human servitude to show their devotion to the power that feeds them.

CONGRESSIONAL PROSPECTS.—It seems to be the current in opinion that S. M. Booth is likely to get the coalition nomination for congress this fall. He is working like a beaver for it. We think an honorable nomination would be most appropriate—abhorrent as would be his election to the feelings of the respectable portion of our people. It would be a legitimate consequence of the inexcusable folly of some of the anti-Nebraskaites—a pill which, though bitter to take, is the best we can imagine to cure the disease.

We are not residents in the first congressional district, and can occupy our time fully in looking after matters at home; but should Mr. Booth have been put in nomination by the convention which met at Rochester yesterday, we agree with the News that it would in one respect be a "most appropriate" selection. The democratic party by its repeal of a sacred compact, and a most wanton agitation of the peace of the country, has forfeited all claim to the confidence of the people or the forbearance of its foes. If Mr. Booth is the "bitterest pill" that can be administered to the party, and its defeat by him would be more humiliating than by any other man in the district, the News and its faction of the party have provoked and richly merit the dose. A violent disease often requires a violent remedy. We could pick for ourselves a candidate more to our taste than the editor of the Free Democrat, but none whose election would be more distasteful to the Nebraska democracy of the state, and so far as that portion of the party is concerned, we could enjoy any amount of retribution meted out to it. So gentlemen Nebraskaites, if Mr. Booth is your next representative in congress, don't blame anybody but yourselves, and try and see if you can't learn something from the lesson it teaches.

"PROGRESS" OF SUBSCRIPTIONS.—We learn that up to Saturday last, \$180,000 had been subscribed in Green county to the Southern Wisconsin railroad.

LATER.—We further hear that up to the evening of the 5th \$220,000 had been subscribed. Of this, \$80,000 were subscribed at Clarence on Tuesday.

The New York Tribune has diminished the size of its daily issue, in consequence of a decrease in its advertising department. The publishers hope that with a return of more prosperous times, and the discovery of some cheaper material for paper than that now used, they will be enabled to go back to the old size.

YELLOW FEVER IN NEW ORLEANS.—For the week ending the 20th August, there were 118 deaths, being an increase of 52 over the preceding week. The whole number of deaths from other diseases was 140. On the evening of the 21st, there were 130 cases of the fever under treatment at the charity hospital.

The earnings of the Galena and Chicago railroad for the month of July last, was—
Freight.....\$56,456 02
Passengers.....35,099 83
Mails.....1,053 33

Total.....\$93,641 21

A company of emigrants from Massachusetts to Kansas, to the number of about 8000 arrived at Albany, N. Y., at 11 o'clock in the evening, on the 30th ult. They were received by a large crowd at the depot, and conducted to the Delavan House, where a pleasant interview was held until after midnight.

PROMOTION.—H. O. Wilson has been promoted from a local to a general agent for this state for the Michigan Southern railroad. The appointment is a good one for the agent and the road.

TAIL RUNNING.—At a foot race at the New York Hippodrome on the night of the 5th inst., Barlow ran two miles in eleven minutes and forty-three seconds, the quickest time on record.

WISCONSIN ANNUAL CONFERENCE OF THE M. E. CHURCH.

SEVENTH DAY.
WEDNESDAY, Sept. 6, 1854.
Conference convened at 8 o'clock, Bishop Morris in the chair. The session was opened with reading the scriptures, singing, and prayer, by Rev. Mr. Martin.

The minutes of the last session were read, corrected and approved.
The conference then took up the 1st question again. C. M. Webster, G. W. Richardson, Jas. Sims, Harvey Palmer, Robert Langley, Samuel Dodge, John W. Waterbury, Wm. H. Bunce, Chas. C. Kidder, Ezra Tucker, J. W. Lyman, Geo. H. Fox, Aaron H. Annis, J. W. Donaldson, J. B. Annette, Jas. D. Requa, E. W. Stevens, Edwin Buck, Kansom Gould, Samuel Sterline, were received on trial.

J. S. Johnson was re-admitted.
A call was then made for the usual church statistics. Reports from the different churches showed a fair increase in membership, local preachers, churches, and parsonages.

The case of afflicted elders was then taken up. The past year has been a time of general health, peace, and prosperity among them.

A. B. Randal was granted a supernumary relation.

The committee on education then presented the remainder of the report.

The conference after deciding to have another session at 2 o'clock, adjourned to that hour.

E. C. JONES, Conf. Reporter.

EDITORS OF THE GAZETTE.—

Permit me through your paper to call the attention of the farmers and mechanics of Rock and adjoining counties, to the fact that the annual fair of the Rock county agricultural society and mechanic's institute, will be held at the "fair grounds" in Janesville, on Wednesday and Thursday of next week, it being the 18th and 14th days of September, 1854.

The officers of the society are making preparations for one of the most splendid and attractive fairs ever got off in Wisconsin. From the known ability, energy and perseverance of the present executive committee, we have the surest guarantee that every thing on their part will be done right, and that they will make the approaching anniversary of the society a memorable occasion—one that will eclipse all its predecessors, and challenge all subsequent ones.

Now, farmers of Rock, Walworth, Green, Dane, and other adjoining counties, shall we respond, and go up en masse and celebrate the festival? Let us go up with our cattle, horses, and sheep, our pigs and poultry, our butter and cheese, our farm implements and mechanical productions, our domestic manufactures, specimens of the fine arts, exhibitions of the skill and industry of our wives and daughters, both in the department of needle-work and forgetting not the gifts of Flora and Pomona, thus inconspicuously demonstrating that we can get up a "state fair" just here in Rock county.

We would not say it boastfully, but we believe the fact should be published, that we have the material, the appliances, both natural and artificial; animals and products; men, women and children, to get up and carry through one of the best agricultural and mechanical exhibitions ever attempted west of the lakes, and would invite all those who may have doubts upon the subject to come out next week and judge for themselves.

In conclusion let me call particular attention to the list of splendid prizes offered by the society for the year 1854. The premiums, to be sure, are only a secondary object, and we merely allude to them to show that our society is a "living, breathing reality." Come up, friends. We shall have a good time!

Yours as ever, for Agriculture and the Mechanic Arts.
J. F. WILLARD.

We fear that the people of this county are not properly seconding the efforts of the officers of the society, and that consequently the fair will not be what it might and ought to be. There can be no question as to the fact that abundant material exists to make an exhibition of the products of the county creditable to the county and the exhibitors. If the coming fair shall be in any sense a failure, or shall not contrast favorably with any of its predecessors, the source of the fault need not be long looked for. The time for preparation is short, and those who intend doing anything should be about it at once.

ADDITIONAL SLAVE STATES.—The Journal of Commerce is very positive that the position taken at the Saratoga convention against admitting any more slave states cannot be carried into effect for the reason that we have made a compact with Texas to admit certain portions of her territory with or without slavery, as the inhabitants might desire. That is a pretty document for those men to bring forward who have been prominent in overthrowing the compact of 1829. The very same impudent pro-slavery advocates who have destroyed the constitutional and hitherto sacred compromise under which Missouri was admitted into the union, now contend that the bargain with Texas is inviolable. We trust that northern men will stand up firmly against the admission of another slave state under any circumstances. We have to meet this element at every point, or it will obtain a signal advantage over freedom. If we yield to it longer, we shall have to surrender all the principles which lie at the foundation of a republican government.—Newark Mercury, Aug. 26.

FITZ-HENRY WARREN IN THE U. S. SENATE.—The Whig politicians in Washington, taking it for granted that the newly elected Iowa legislature will surely decapitate senator Dodge, whose term of service expires on the 4th of March next, are in ecstasies at the prospect of the election of Mr. Fitz-Henry Warren in his stead. If they get him there he will surely prove the ablest right-hand man whom senator Seward will have in the body. He is intelligent and indefatigable, knowing every body and everything in a political way, worth knowing. Personally, he is very popular.

NEWS BY THE PACIFIC.—We give the particulars by the arrival of the Pacific announced yesterday.

Letters from Bismarck give the details of the capture of that fortress. The effect of the guns upon the walls was terrible, and large blocks of granite which appeared impregnable fell out in masses. The English loss was only one, and the enemy had 6 killed and 7 wounded. The 2000 prisoners are to be sent to the Downs to await orders. Among them are General Bodisco and the Governor and Lt. Gov. of the fortress.

Letters from Jassa say the Russian troops will all have crossed the Pruth by the 1st September.

The cholera was making awful havoc among the allied troops. The latest advices put down the French loss by cholera about 700, and the English at 600.

The Austrian corps was marching upon Wallachia at the latest accounts.

The health of the combined armies was improving.

Gallipoli is nearly free from cholera.

The Russians suffered terribly on their route towards the Pruth, and took with them 24,000 sick. Prince Paskiewitch was to resume the principal command of the army, in the place of Gortchakoff, who was to have the chief direction of the troops. About 70,000 entered Bessarabia.

The Prussian government insists that the negotiations between the western powers and Russia shall be submitted to the diet out of Austria, but Austria refused.

The Russian head-quarters have been established at Ismail.

The Austrians have commenced crossing the frontier at Varna and Servia.

Henry Waterston & Son, of Vienna, have failed for five millions of florins. The failure of Monuporgue & Co., of London, is also anticipated here.

Archangel is effectually blockaded.

All quiet in Spain.

Trade at Manchester quiet and buyers not disposed to make further contracts.

The following dispatch, announcing the capture of the important place, has been received by the English and French governments' admiralty:

SARGUNG, August 19.—A telegraph dispatch has been received at the admiralty office. This was from the flag, and sent by Sir Chas. Napier.

The Douglas meeting at Chicago, on Friday night, was an uproarious affair. The papers say that there were nearly five thousand persons in attendance. They uncivilly hissed him down two or three times. His speech was rather the answer to inquiries, from all sides, than a regular speech. They should have heard him quietly, and then rebuked him by voting down approbatory resolutions. But the indignation is so intense at his treacherous course in congress, that it was not restrainable within the bonds of decorum. It will be remembered that Douglas not only voted to open thirteen states, as large as New York, to the introduction of slavery, but he also voted against the harbor and river bill, and cordially voted to give \$10,000,000 to Santa Anna, in order to extend our southern boundary. He also favors a war for Cuba—or its purchase for \$100,000,000 or more. All these causes combined, renders the feeling of indignation against him intense. It should also be borne in mind that his few followers in this city favor the same anti-democratic, or rather Russian principles.—Wisconsin.

AN UNSELFISH PRAYER.—A correspondent writing from Florida, gives an incident in relation to a prayer offered by request during the severe drought, by a venerable Methodist preacher who bore no good will to the baptists. His prayer was somewhat remarkable for its unselfish tone, and ran thus:

"Let it rain, beginning at my plantation in Hamilton county, coming down to the religious neighborhoods of Columbia and Nassau, where immersion is not practiced, and reaching Black Creek, Green Black Creek and bringing forth in abundance, none of your little 'nubius,' however, but long ears, as long as this good right arm."—Nat. Intell.

WATER CURE ESTABLISHMENT.—A gentleman is in our village making preparations to open a water cure establishment at "Devil's Lake." No better place could be found anywhere for an establishment of the kind.—Durand Standard.

There could not be found a more charming spot for such an establishment in the whole union. The water and scenery is incomparable and the rattlesnakes very large.—WVa.

The Newark, N. Y., Mercury publishes an account of the discovery by the parents of a child stolen from them two years since in New York. The mother having got a clue as to the whereabouts of her stolen daughter, proceeded to the house of the persons who abducted her—and who were bringing her up as their own—and upon knocking at the door for admittance it was opened by her own child. The recognition was mutual and joyous. The mother demanded her daughter, the woman of the house resisted, but the true parent carried off her long lost, and the parents and child were overjoyed.

A NOVEL WAY TO RAISE THE WIND.—One day last week, a gentleman-looking young fellow, about twenty-two or twenty-three years of age, called on the sexton of Cave Hill cemetery, and ordered a child's grave to be dug. Having seen the sexton break ground, he remarked that he would then pay for the work, and ordered a ten dollar note receiving eight dollars in change. As no child's funeral made its appearance during that day, nor the next, nor the next, the sexton suspected something was wrong and upon examining found his ten dollars counterfeit. So he is out of pocket to that amount, besides the labor of digging the grave.—Louisville Courier.

Soon after the Madison convention, it was claimed by some of the Nebraska presses that there were 13 papers in this state that supported the Nebraska bill and slavery extension. This statement we recorded for future reference. How many papers are there now which support Nebraska? "Such another getting down stairs," &c.—Monroe Sentinel, Democrat.

An old woman at New Haven applied to her doctor for some imaginary disorder, and received a box of pills, for which she paid 50 cents. She took some doses and got well, as if by magic. She carefully kept the remainder, but somehow the box got knocked out of the window. It was several weeks before she discovered her loss, when on going down under the window in the garden, she found that all her pills had sprouted! They were only peas in disguise.

CHICAGO & MILWAUKEE R. R.—This company will locate their depot about one block from the Illinois & Wisconsin railroad near Kinzie street bridge.—Chicago Democrat.

TO DESTROY VERMIN ON ANIMALS AND TREES.—G. W. Kendall, one of the editors of the New Orleans Picayune, in his letter from Paris to that journal, gives the subjoined recipe for destroying vermin on animals, plants, and trees. The remedy is simple, easy of application, and worthy of at least a trial:

The celebrated Raspail, well known as one of the best French chemists, has given an important recipe for destroying vermin on animals, and also on plants and trees—important, at least, if true. The process he recommends is to make a solution of aloes—one gramme of that gum to one litre of water, French measure; and by means of a large brush, to wash over the trunks and branches of trees with this solution. This simple process, says Raspail, will speedily destroy all the vermin on the trees, and will effectually prevent others from approaching. In order to clear sheep and animals with long hair they must be bathed with the solution, or well washed with it. Raspail mentions several trials he has made with this mixture, all of which have been attended with the most complete success; and he recommends it very strongly to general use. I can only say that if a simple solution of aloes and water will kill or drive away ants from peach and other trees in Texas and other parts of the south, the discovery will be hailed with pleasure. At all events, there is no harm in trying the experiment. A French litre is a little less than three of our pints; a gramme is the five-hundredth part of a French pound. A little aloes, if used at all, will thus go a great way. Were I troubled with ants and other vermin in Texas, (Mr. Kendall having a large flock of sheep in Texas,) I should certainly try Raspail's solution.

If anything was necessary to show that the administration of Franklin Pierce had become desperate, we should only have to look at his official organ, the Union. Terrified and alarmed at the great movement which is going on throughout the whole northern section of the country, it vents its spleen upon the whigs, and calls them all manner of hard names. But not satisfied with this, it has recourse to downright misrepresentation and falsehood. The Nebraska ka, perfidy haunts its disordered imagination, it and it finds that like the ghost of Banquo, it will not down at its bidding; and consequently it attempts to gain consolation by stating what every man of observation knows to be untrue. Hear its deliberate falsehood:

The Nebraska bill, and save among those, whose trade it is to assail the Union, and to seize every pretext to infuriate the south, the public mind is rapidly reaching the conclusion, that it was a wise, patriotic, and necessary act of congress.

Where does the Union find its evidence for this false assertion? In the defeat of the administration in the president's own state? Or does it look to the more recent defeats of the democratic party in Missouri and Iowa. If the public mind rapidly reaches any more such conclusions, the administration will soon find itself as powerless as were the mosquitoes at Greytown.—Boston Atlas.

THE USURY LAWS.—The operation of the usury laws in this state has had for many years a prejudicial effect upon its commercial movements. They restrict the free use of capital by preventing loans by capitalists when risks are, at present, extra hazardous. There are certain times in commercial history when the loan of money is accompanied with a greater risk than under ordinary circumstances, and the premium (or rate of interest) on loans, during a period of financial difficulty, should be commensurate with such extra hazard.—Courier and Enquirer.

Upon the above the Albany Journal makes the subjoined pertinent and forcible comments: Our usury laws were so modified, under malign influences, as to allow railroad companies "the largest liberty" in negotiating loans. In this respect therefore, capitalists have been free to take as many "extra hazardous risks" as they pleased. Railroad bonds have, like produce and merchandise, been matters of traffic between seller and buyer. Or, like water, (in free trade parlance,) they have been "seeking their level," and are, we may add, pretty sure to find what they were seeking!

Whether this measure of experience, in the wisdom of "free trade money," will satisfy capitalists, can be best determined when their bond account has been closed.

We will not now assume, as we might wish out of fear of contradiction, that if railroads had not been exempted from the effect of the usury laws, we should have escaped the financial evils now pressing upon us, because the lightest evil of these evils have come! The worst, however, is at hand, in the failure to pay interest, the foreclosure of mortgages, the sale of roads, and a train of consequences which we will not anticipate.

DERANGED MAILS.—We saw at the post office this morning fourteen canvass bags filled with bound books, and addressed to Augustus Caesar Dodge of Burlington, Iowa.

No wonder mails are deranged when they are burdened with whole libraries. Augustus Caesar, however, having met his Brutus, we shall not hear so often from him hereafter.—Chicago Journal Aug 16th.

And no wonder the expense of the post office department exceed its revenues, when tons of free matter are carried to almost every section of the union, under the frank of a member of congress. And this is not the sole evil.—Just so long as members of congress can "dead-head" through the post office, whatever they please just so long will they continue to vote themselves books and other articles which they ought to pay out of their own and not the pockets of the people. In the civil and diplomatic appropriation bill passed by the last congress, the sum of \$218,725 80 was directed to be taken from the treasury, to pay for books for members—more than \$1,000 to each member. There is but one remedy for this; cut off the privilege of the "frank" from our members of congress and the book plunder will stop. If our members of congress are not sufficiently compensated for their service, raise the amount of compensation by law; but let a stop be put to this wholesale system of plunder.—Albany Register.

The administration papers have but very little to say about Iowa. The result in that state seems to have paralyzed them. Even the Union, whose impudence seemed exhaustless, mourns in silence. And well it may; for since the passage of the Nebraska swindle, the administration has lost six United States senators, five states, and half a score of members of the house of representatives! "Popular sovereignty" seems to be illustrating its potency in a manner quite unexpected to those who applied the principle for the purpose of extending slavery. However, as they sowed the wind it is pleasant to see them reaping the whirlwind. Where is Douglas?—Albany Journal.

The Niagara Democrat, N. Y., says the yield of wheat upon some farms in that county will be as low as five bushels to the acre. As the threshing proceeds, the farmers find their crop even shorter than was anticipated.

ENGLAND'S HUMANITY.—It is generally known that savages were employed by the king of England, George III., and paid at so much per scalp of man, woman and child, during the revolutionary war. A few items from this terrible trade in human flesh may perhaps interest some of our readers, and show how this paternal king strove to crush out the noble spirit of independence of our early heroes. Here is a list of a number of packages that were sent by one James Boyd, from a Captain Crawford, to the British Governor of Canada, Col. Hamilton. These packages of scalps were found among the baggage of the English army, after the defeat of Burgoyne, cured and dried, with Indian marks upon them. The letter accompanying them ran thus:

Package 1. Containing forty-three scalps of congress soldiers, killed in different skirmishes, stretched on black hoops, four inches in diameter.

Package 2. Containing ninety-eight farmers' scalps, killed in their houses, on red hoops, with a figure of a hoe painted on each to denote their occupation.

Package 3. Containing ninety-seven farmers' scalps, on green hoops, to show they were killed in the fields.

Package 4. Containing one hundred and two farmers' scalps, eighteen of them marked with yellow flames, to signify that they were burned alive.

Package 5. Containing eighty-eight scalps of women, hair long and braided, to show that they were mothers.

Package 6. Containing one hundred and ninety-three scalps of boys of various ages, on small green hoops.

Package 7. Two hundred and eleven girls' scalps, big and little, on small yellow hoops. Such was the stuff of which English royalists were made in the "days which tried men's souls."

A PERIODICAL IN JANEVILLE!
"The Wisconsin Home,"
A Miscellaneous and Reformatory Journal, will be printed on the first and fifteenth of each month from and after the FIFTEENTH OF SEPTEMBER, 1884.
By Messrs. BARN & DORR, publishers and proprietors of the Janesville Free Press; and edited by Wm. M. DORR, of the above named firm.
Each No. of "The Wisconsin Home" will consist of EIGHT PAGES; making a sheet, in point of size, nearly the same as the "Scientific American." We shall reserve ONLY ONE COLUMN OF ADVERTISING for the purpose of publishing an occasional prospectus in addition to our own, leaving THIRTY-ONE COLUMNS OF READING MATTER.
One or two good stories will appear in each No., but none except those having a directly moral and beneficial tendency will be admitted into its columns. A short summary of passing events will be given, but no political ground will be taken. As a better idea may be formed by seeing the article itself, the first No. will be furnished to all who may wish to examine it, FREE OF CHARGE.
The basis of "The Wisconsin Home" will be ONE DOLLAR PER YEAR, payable half yearly in advance. Subscription books now open.
Orders solicited early, especially for sample numbers, in order that we may know how large an edition will supply the demand. Address post-paid, W. M. DORR, Janesville, Wis.
* * * Papers giving the above offer insertion and calling attention to it editorially, will not only be entitled to an exchange, but to the thanks of the proprietor.
